

## **SAVE THE DATE: HangART-7 Edition 18 Czech Republic**

The summer exhibition of the HangART-7 Art Programme (July 9 to mid-September) is devoted to our neighbouring country of the Czech Republic. The artistic director and curator of HangART-7, Lioba Reddeker, together with the Prague artist and curator Daniel Pitín, has chosen eight young artists:

Josef Bolf (\*1971), Veronika Holcova (\*1973), Alžběta Josefy (\*1984), Tomáš Němec (\*1986), Michal Pechoucek (\*1973), Robert Šalanda (\*1976), Zbynek Sedlecký (\*1976), Jakub Špaňhel (\*1976).

The images created by the artists tell of places and people, mainly based on personal memories and interwoven in scenes of everyday life. Some of the artists let us experience new interpretations of romantic motifs such as landscapes. Narrative and playful at once, the presented work comes to grips with figuration. It experiments with materials such as textiles or uses a language of symbolism that often seems ironic to the viewer and allows ample room for interpretation.

The HangART-7 Art Programme offers emerging artists, who are in exciting stages of their development, a greater visibility and professional presentation in the media. In this way HangART-7 provides effective starting aid for many promising artists, not least in the international art market.

Every exhibition centres on a different country; the focal point of the programme is figurative painting. Each exhibition presents new talents and current artistic trends.
